Reinforced palm, thumb, fingertips, and saddle

Machine washable

Vented Clarino® synthetic leather forchettes

Clarino® is highest quality synthetic leather providing unmatched durability and dexterity

Breathable, washable, and lightweight

Neoprene knuckle is an oil resistant substitute for natural rubber. It is resistant to damage from flexing and twisting, and degradation from the sun.

Gel-packs in palm form a unique rope control channel.

Applications:

Rescue workers, Rigging applications, Law enforcement, SWAT/Tactical, Sport climbing
